Educational Technology

The goal of Educational Technology is to support student learning through effective technology integration.

For additional Douglas County school support, contact Educational Technology Specialist Kim McMonagle. Great resources will be shared for the Digital Educator Program, Instructional- Computer Resource Teachers, and Information Literacy: ETIL.

IMPORTANT OPPORTUNITIES:

Morgridge Foundation's Interactive Whiteboard Grant: "[Designing 21st Century Classrooms for Teaching and Learning](#)" benefits 65 Douglas County Educators in October 2008 and January 2009.

January 23, 2009 at Chaparral High School
Profession Learning Communities: Job Alike "Techextravaganza"
Plan to attend the whole day, AM sessions or PM sessions

DCSD's 2009-2012 [Educational Technology-Information Literacy \(ET-IL\)](#) plan is being drafted. [Share your thoughts, suggestions, questions on our ET-IL wiki.](#)

The district's [educational technology](#) website has a lot of resources for teachers.

Which software are you interested in integrating into your curriculum?

- A. Podcasting (Garage Band)
- B. iMovie
- C. Comic Life
- D. Timeliner
- E. iPhoto
- F. Google Earth

Think-Pair-Share

Think of a tech integrated projected you have done with students, pair with a partner and share.

I feel I have access to technology in order to adequately integrate technology.

- A. Strongly Agree
- B. Agree
- C. Neutral
- D. Disagree
- E. Strongly Disagree

How many computers does SGMS have?

- A. 317
- B. 398
- ✓ C. 428
- D. 450

Next year our students will have access to more computers than any other student in the district.

Are the speakers you have meeting your needs?

- A. Yes
- B. No

How many laptop wireless carts are available for checkout?

- A. 7
- ✓ B. 6
- C. 5
- D. 4

How many CPS clicker sets do we have?

- A. 5
- ✓ B. 7
- C. 8
- D. 10

CPS clickers can be used without creating lessons or tests. Fast grade or verbal responses require little preparation and engages every student.

Did you know we have wireless slates? How many do we have?

- A. 4
- B. 5
- C. 7
- ✓ D. 8

Wireless slates can be used to explain math processes with an individual but allows the entire class to benefit from that individualized instruction.

**GPS devices engage and motivate students.
How many GPS devices do we have?**

- A. 10
- B. 15
- C. 20
- ✓ D. 30

Geocaching is one use of GPS devices and can incorporate every content area.

Guess how many camcorders we have for check out.

- A. 4
- B. 5
- C. 7
- ✓ D. 8

Digital camcorders can be used for teacher or student demonstration of math concepts which can then be posted on your School Center site.

Guess how many cameras we have
for teacher check-out?

- A. 10
- B. 12
- ✓ C. 16
- D. 24

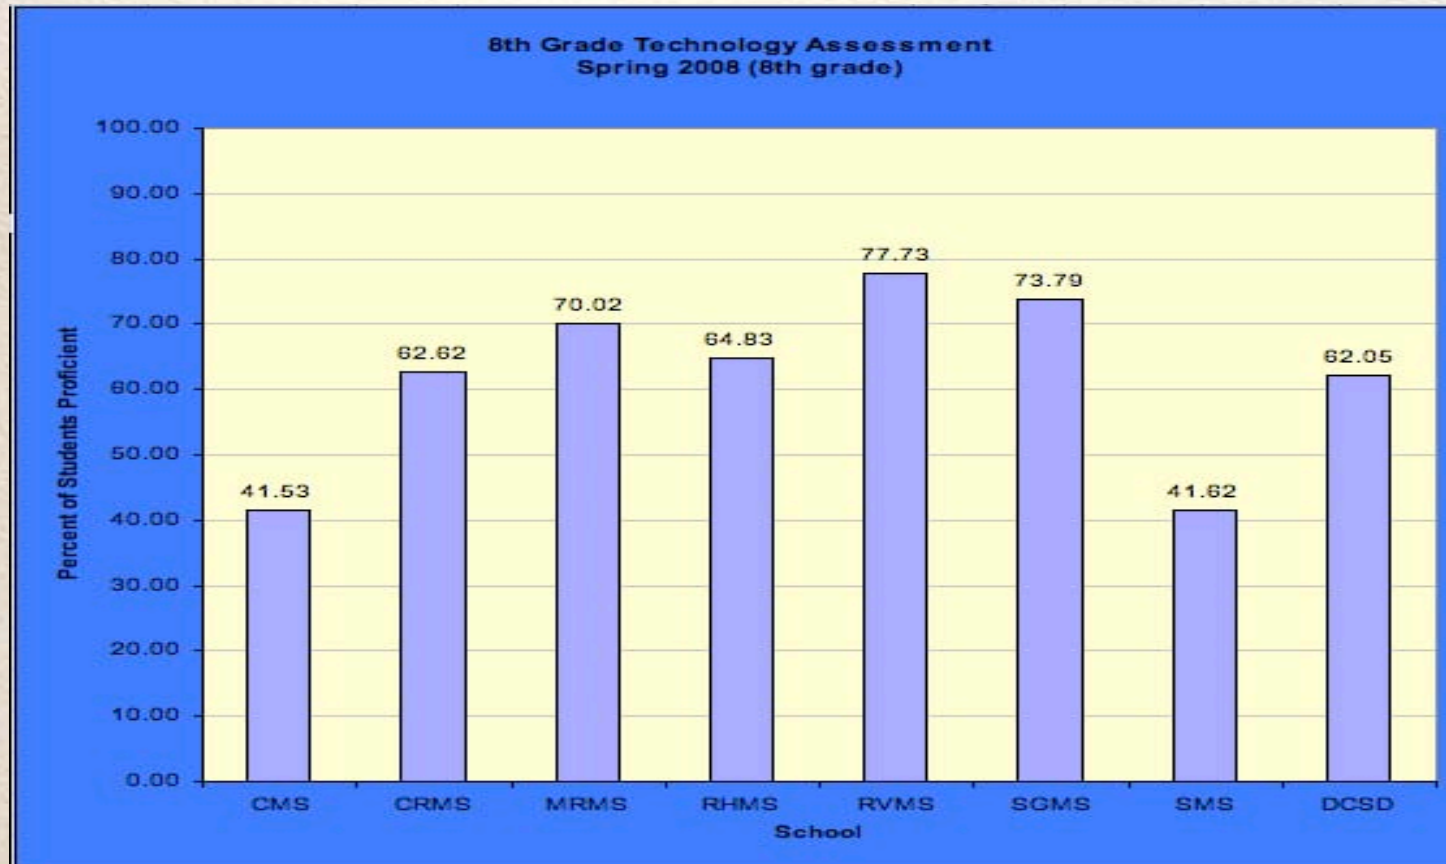

Digital Cameras can be used to document science experiments for a lab write-up or to digitally chronicle long-term changes in experiments.
